

Millions for Proteomics Research in the Peer Reviewed Medical Research Program (PRMRP)

SomaLogic - Your Partner for Success in the PRMRP

This document accompanies the webinar presented by Tammy Hicks and Liz Barrows, on behalf of SomaLogic, in order to support researchers in applying to the 2023 PRMRP. To get much more detailed information on how to maximize your chances for success and why SomaLogic is your partner of choice, the webinar can be viewed at somalogic.com/webinar/millions-for-proteomics-research-in-the-peer-reviewed-medical-research-program.

Congressionally Directed Medical Research Programs and the PRMRP

The webinar is a brief introduction and overview of the Congressionally Directed Medical Research Programs (the CDMRP), with a focus on the largest program under that umbrella, the \$370-million dollar Peer Reviewed Medical Research Program (the PRMRP). The PRMRP funds research focused on 50 specified Topic Areas. One of this year's new Topic Areas is Proteomics, a foundational tool for clinical research and patient and subject management. Like many federal programs, there is a plethora of information available on a wide array of websites, which are shared below.

SomaLogic Technologies – Giving Your Application the Edge!

SomaLogic is a cutting-edge proteomics company bringing sensitivity, specificity, reproducibility, and scale from basic research to clinical. Our current library has more than 7,000 protein measurements, and with our large content offering, SomaLogic is leading the way with high-throughput coverage of the proteome. We are the only proteomics partner that can routinely give this amount of biological insight.

Proteomic insights are relevant at every stage of therapeutic development. From discovery through clinical trials to commercialization of a product, the platform remains unchanged. Higher protein coverage means more powerful insights and results, increasing the potential for improved patient outcomes and quality of life.

You can hear more about specific examples of how SomaLogic's technologies can be an important addition to your PRMRP Application in the webinar.
